

FIFTEEN HAPPY WOMEN.

Work Accomplished at the Montreal Benevolent Society Home.

There is no sectional feeling about Paine's celery compound. It is found in thousands of homes in the north, the east, the south, and the west. It is above party and politics.

The strong and truthful statement made a short time ago by an old physician in New York that "Paine's celery compound is life and health to thousands of sickly and suffering women," is fully and amply borne out by results obtained in the Ladies' Benevolent Society's home, Montreal.

People in every section of the world have heard of the charitable and Christian work done by wealthy and philanthropic ladies of Montreal, in the noble institution just referred to, which has been in existence nearly sixty-five years.

A year ago it was deemed advisable to introduce Paine's celery compound into the home, as so much had been said by the physicians in favor of the great remedy. Indeed, many friends, contributors and workers for the home had themselves used Paine's celery compound and obtained astonishing benefits.

"Never in the history of this long-established institution," reads the report, "was anything received with greater demonstration of joy and thankfulness."

Fully a score of worthy old ladies, suffering from rheumatism, nervous complaints, and other grave troubles, soon found a new life, energy, vim, and a freedom from pain that other medicines had failed to accomplish.

The old ladies rest, better, sleep better, eat better, and are freer from pain than they have been for years.

The officials of the Montreal Ladies' Benevolent Society have not been slow to recognize the fact that the old ladies under their care derived great good. The lady directresses have officially written to the proprietors of Paine's celery compound, expressing their hearty thanks for the good done.

Above is a photograph of a group of the women benefited—as "happy a group as can be imagined," says the letter that accompanies it, "made happy by that life invigorator, Paine's celery compound."

It is because old age to most people means debility, loss of powers of mind and body, and a growing weariness and weakness that it is dreaded.

But there's another kind of old age now possible. One cannot defy death, but he can die easily.

Nature meant old age to be hale and sound, and by attending closely to the means of repair of the body, one may live according to nature, to a grand old age in the best sense. Paine's celery compound makes a good old age possible to many. Paine's celery compound is a true source of nourishment to the nervous system, and through the nerves to the entire body.

VERMONT NEWS.

Large Manufacturers at Hartford and Quebec Shut Down.
The flannel manufactory of A. G. Dowsy & Co. at Quebec and the Hartford Woolen Mills shut down last week for an indefinite period because of lack of orders. These two plants gave employment to over four hundred hands, most of whom are entirely dependent on their daily wages.

A HEAD COLLISION.
Near Omaha, Neb., in which Dr. H. B. McIntyre is injured.

A PASSENGER and freight train on the Chicago, Rock Island and Pacific railroad collided at Albright, Neb., nine miles from Omaha, last week Thursday. Dr. H. B. McIntyre, World's Fair commissioner, from West Randolph, was injured in the right leg and in the face. Four other passengers were slightly hurt, and Mail Clerk Miller received injuries which it is feared will prove fatal. The trainmen jumped and saved their lives.

SERIOUS AFFAIR AT WEST RANDOLPH.
Two Drunken Men Attempt to Run a Hotel—Owner Walker Obligated to Use a Revolver.

J. F. CUNNINGHAM and James Welch, two contractors, employed at West Randolph, created such a disturbance in Ryder's hotel, at West Randolph, last week Thursday night, that Officer John Walker was called. He attempted to induce the men to go to bed, but they refused. Welch then drew the officer a murderous blow which felled him to the floor. He drew his revolver and shot his assailant in the left breast. The two men were intoxicated, and were subsequently lodged in jail. The result of the shooting may be serious. Cunningham was formerly a policeman in Boston, where he has an aged mother and sister dependent on him for support.

Rev. William Robert Walker, rector of St. Peter's Episcopal church, Bennington, resigned last Sunday. It is understood that his resignation was demanded by a committee of the vestrymen. His resignation has been accepted and Mr. Walker has gone to Brooklyn, N. Y.

The remains of a full-grown child were found last Saturday in a well at Bennington. The mother, Mrs. Allen, has lived several years with a man named Frank Hill, both of whom have been arrested. Physicians say the babe was born alive. The mother says she does not know whether it ever breathed or not.

The annual meeting of the stockholders of the Connecticut River and Passumpsic railroad was held at Newport last week Wednesday. W. K. Blodgett, Amos Haines, Alden Spear, John H. Williams, Oscar Edwards, John W. Dunklee, James H. Williams, John Mulligan and James A. Rumlill were elected directors. The directors chose W. K. Blodgett president, H. C. Cleveland clerk, James H. Williams treasurer.

A DASTARDLY attempt was made to wreck the New York sleeper on the Bennington and Rutland road, near Wallingford, early last week Wednesday morning. The bolts and nuts which support what is called the Childs bridge were removed, leaving nothing to support the bridge but the lateral rods. The train was running about forty miles an hour, and only the last car, an empty sleeper, was wrecked. No one was injured, although the colored porter in the rear car had a narrow escape. About sixty feet of the bridge was wrecked and lies in the stream fifteen feet below. The officials of the road have offered a reward of \$500 for the detection of the perpetrators of the crime.

arranged in the general sessions to plead to the indictment, and her case will be brought to trial as speedily as possible.

New Hampshire is overtopped with tramps. They infest the country and have begun to venture into the cities and towns. Several serious assaults have already occurred. A tramp was recently discovered breaking into a house in Manchester, but was met by the owner and given a terrible thrashing before he could get away.

The pension resolutions adopted at the national Grand Army encampment cover the ground in a dignified manner, and are adopted by a unanimous vote. The national council of administration was instructed to have a test case taken to the supreme court to determine the right of the secretary of the interior to revoke a pension without giving a pensioner a hearing.

LEVI W. MEYERS, United States consul at Victoria, B. C., reports to the state department that the total catch of seal during the season of 1893, British and American, and including both sides of the Pacific, will reach at least 100,000 skins. The total sealing fleet of this year was about ninety-two vessels, of which the ship "Albatross" from San Francisco, six from Seattle and fifty-four from Victoria.

Addresses of welcome were made by Harlin Padlock and Judge Walter P. Smith, which were responded to by Col. Fairbanks. Music was furnished by the band.

John W. Titcomb, assistant superintendent of the Howe Scale Works at Rutland and secretary of the state Fish and Game League, has come to St. Johnsbury for six months to superintend the erection of the government fish hatchery. Mr. Titcomb has a special fitness for this work, and his appointment gives much satisfaction.

The Danville Baptist association held an interesting all-day missionary meeting at the Railroad street Baptist church, last Friday. Mrs. Silver of Newton Center, Mass., Mrs. J. Safford of Boston and Mrs. Safford of Fairfax were among the speakers in the afternoon, and in the evening Mrs. Mary Ellen Davies, principal of a school in the Chickasaw Nation, Indian Territory, gave an address on "Educational missionary work in that territory."

The appointment of chief justice of Samoa has been tendered to Hon. H. C. Ide, who has accepted the position. To be chief of the joint protectorate over these islands, which is represented by the American, German and British governments, is an honor of which any man may well be proud, and the fact that Mr. Ide has been tendered the position speaks volumes of the opinion held by those in authority of his services as commissioner there. The position is permanent unless the method of government should be changed. Considerable dissatisfaction has been expressed with the present justice, and his removal was thought to be desirable. With the appointment is a large leave of absence, and Mr. Ide will sail on the steamer to take charge of his important office.

G. W. Kennedy has returned from Danbury, Conn., where he has been engaged in the study of the Polytechnic Institute of that city, where he has been for a year.

Rev. J. J. Lewis closed his series of four illustrated lectures last Thursday evening. He has had a large audience at each entertainment, and all express the utmost pleasure and satisfaction. Mr. Lewis may rest assured that a warm welcome awaits his next visit to our village.

Mr. Moore, the builder of our concrete sidewalk, is here to repair the crossings at his own expense. The decision of the village trustees to expend quite a large sum of money in repairing the concrete walks is severely criticized, as many think it entirely unnecessary to commence patching it this year.

The Winoski Valley agricultural fair opened yesterday with very fair prospects for a successful season of three days. The entries of horses make a commendable showing, and that of cattle and other stock will compare favorably with preceding exhibitions. Floral hall presents a very attractive appearance, and it is hoped that everybody will attend and help make this the banner year of the society.

One of our best granite cutters, who comes from a European country, tells us that he has received some \$7200 in work done in the month. In his own country, he would—as we understand him—have received some \$1500 of American money, and worked at least a third more hours.

Fred Blanchard closed his engagement at the White Mountains last week, and came here for a brief visit on Friday evening. He will enter a school of oratory in Boston this month, and will receive some \$7200 in work done in the month. In his own country, he would—as we understand him—have received some \$1500 of American money, and worked at least a third more hours.

After a residence here of some three and a half years, John Duffus and family are returning soon to Waterbury to live. Their departure is greatly to be regretted, in addition to the loss of their family from some of the best interests of the place is the loss to our granite industry. Mr. Duffus having prosecuted his work as a manufacturer with true Scotch persistency. Business considerations have led to his removal.

There seems to be a general impression among the granite manufacturers that the fall and the coming winter are to be a season of the way of granite work. The largest company here is employing but about half its full force. One of the most prominent granite men, in a neighboring town, had to lay off a day or two ago.

With a republican administration this would have been the best year known in the granite business here. As it is, I anticipate double the winter work yet known in it.

No House Complete.
Without its bottle of SOZODONT. As a toilet article a luxury, and its regular use to early youth to old age, would tend to secure and maintain beautiful and healthy teeth. It is also most economical, as a few drops upon the brush will do all that is needed for efficacy and pleasure.

A FEW drops of Spaulding's Glue on a brush, properly applied, holds like a vice.

What is Eczema?

It is an agony of agonies. A torture of tortures.

It is an itching and burning of the skin almost beyond endurance.

It is thousands of pin-headed vesicles filled with an acid fluid, ever forming, ever bursting, ever flowing upon the raw excoriated skin.

No part of the human skin is exempt.

It tortures, disfigures and humiliates more than all other skin diseases combined.

Tender babies are among its most numerous victims.

They are often born with it.

Sleep and rest are out of the question.

Most remedies and the best physicians generally fail, even to relieve.

If CUTICURA did no more than cure Eczema, it would be entitled to the gratitude of mankind.

It not only cures but

A single application is often sufficient to afford instant relief, permit rest and sleep, and point to a speedy cure.

CUTICURA works wonders because it is the most wonderful skin cure of modern times.
